

M02 Quality Policy

The company has established a Quality Policy, which is in accordance with its purpose and context. This policy provides a framework for setting and reviewing objectives, in addition to fulfilling the commitment to relevant customers, regulatory and legal requirements, and the commitment to continued improvement of its management system.

Customer focus: As a company we are committed to understanding current and future customer needs, meeting customer requirements and to strive to exceed expectations.

Leadership: Management is committed to creating and maintaining a work environment in which employees are engaged in achieving its quality objectives.

Engagement of people: As a company, we recognize, that employees are the essence of a good company, and their full engagement allows their skills to be used for the benefit of the company.

Process approach: As a company, we understand that a desired outcome can be achieved more effectively when activities and related resources are managed as a process or as a set of interrelated processes.

Improvement: The company is committed to continuously achieve and, where possible, improve all aspects of the MS. This is one of the annual objectives.

Evidence-based decision making: As a company we are committed to only making decisions related to our MS, once an analysis of all relevant data and information has taken place.

Relationship management: iFIL AG recognizes that a company's relationships with its suppliers are interdependent, and a mutually beneficial relationship enhances the capabilities of both parties and creates value.

The company's policy also includes meeting the requirements of all interested parties, social, environmental, charitable, regulatory, and legal responsibilities.

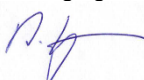

The company has established quality objectives related to this policy which can be found in the document **QMS-005 Quality Objectives**. This policy is available to all interested parties, communicated and issued through publications.
